CHAIRMAN'S STATEMENT

Dear shareholders,

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of Grand Concord International Holdings Limited (the “**Company**”, hereinafter together with its subsidiaries referred to as the “**Group**”), I would like to present to all shareholders the audited consolidated results of the Group for the year ended 31 December 2014 (the “**year under review**”).

In 2014, given the sluggish global macroeconomic environment, governments of many regions, such as European countries and Japan, rolled out proactive monetary policies, to revitalise their economy against deflation. The US economy began to show signs of a pick-up but the overall performance of China's garment export industry was not given an advantage to a great extent. Therefore, during the year under review, under our market-and-customer-orientated operating philosophy, we deepened our expansion in the markets where we had established a leading position, and continued and timely adjusted our business strategies, striving for a more stable performance during the period under review. Under the year of review, the Group recorded turnover of approximately RMB453.5 million, representing a decrease of approximately 16.6% compared with RMB543.8 million in 2013; the Group's profit attributable to shareholders increased by approximately 5.3% to approximately RMB25.7 million. Gross profit was down by 8.4% to approximately RMB111.5 million (2013: RMB121.8 million) but gross profit margin was up by approximately 2.2% percentage points to 24.6%. Turnover of knitted fabrics climbed by 4.4% to RMB191.2 million (2013: RMB183.1 million) and turnover of innerwear products dropped by 27.3% to RMB262.3 million (2013: RMB360.7 million).

The global economy saw slow recovery despite difficulties. On the contrary, China's economy picked up at a slow and rational pace. In 2014, the gross domestic product (GDP) growth of 7.4%, the total exports and imports of RMB26.43 trillion and the real year-on-year growth of total retail sales of social consumer goods of 10.9% in China were sufficient to prove China's economic growth in a stage characterised by stable growth, stabilised employment situation and industrial transformation and upgrade. Apart from positive domestic economic conditions, the overall performance of China's garment export industry in 2014 was stable. For the overseas markets, we remained confident about the Japanese market, and were of the opinion that, the demand in that market was stable. During the period under review, the Group actively looked for and accepted new customers from the European market. The European economy saw a gradual upturn, and the statistics also showed a robust increase in the value of China's exports to the European Union by 16.1% to USD41.92 billion for the first 11 months in 2014. The European market immediately became China's largest export partner, accounting for 24.6% of the total exports. In this regard, we will continue to strive for more orders from European customers that demand for quality functional fabrics and innerwear products. Notwithstanding more intense industrial competition putting constant pressure on unit selling prices, we believe that, leveraging effective cost-control and development and promotion of products having unique functions, we are able to seek stable returns, expand market penetration, and also maintain friendly and mutually beneficial relationships with our customers.

CHAIRMAN'S STATEMENT

In 2014, the Group worked diligently in silence, and performed our duties faithfully. During the period under review, despite a challenging operating environment, we continued to invest in advanced and environmental-friendly production machinery to further improve automation efficiency, and optimise the allocation of labour during its production process in order to cope with the increasing labour costs and provide us a pragmatic production base. In the meantime, we further devoted ourselves in the research and development of new products and enhancement of the environmental protection quality of its functional fabrics products catering for the rapidly expanding market demand in the leisure, home and sports markets. Feeling-cool fabrics launched in the first half of the year and existing functional fabrics of the Group were well received by our customers and their uniqueness resulting in their application to various garments in turn gave a boost to the Group.

Looking forward, China remained as one of the fast growing economies in the world. With economic stimulus packages actively introduced by all governments, we expect the overall macroeconomic dynamics to sustain, which will benefit the development of all walks of life. We will be better prepared for the upcoming growth in demand for functional fabrics and functional innerwear products. We will continue to strengthen innovation and design capabilities, manufacture quality and diversified products, reinforce long-term and close business relationships with customers in their leading brands, and constantly identify new business opportunities. By virtue of the Group's expertise in the fabrics industry, widespread and solid customer base, and renowned quality within the industry, we believe that our business will grow amid stability and achieve sustainable growth, thus bringing higher and desirable returns to our shareholders, staff and partners.

On behalf of the Board, I hereby express my heartfelt thanks to the management and staff of the Group for the tremendous efforts they have paid over the past year. In the meantime, I appreciate the trust and support from all shareholders and members of the Board to the Group, and, in the coming years, we will be committed to developing business, to bring better returns to our shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW

Global economy had a modest recovery in 2014 whereas China had a steady but slower growth, suggesting an increasingly complicated macroeconomic environment with lingering downward risks. In the United States, favourable industry restructuring and stable expansionary monetary policies slowly lifted the economy. In Europe, high-income countries led by Germany maintained robust growth, paving the way for a recovery across the Eurozone. However, other European regions were unable to gain growth momentum in the short-term due to the aftermath of the debt crisis and its resulting geopolitical impact. In Asia, especially China, managed to sustain moderate growth under the micro stimulus from the government economic policies.

China's exports maintained good growth momentum during the year 2014. According to the General Administration of Customs of the PRC, dragged by negative growth of annual total textile and apparel exports in November and December, China's aggregate total textile and apparel exports amounted to approximately RMB1,833.337 billion in 2014, representing a slight year-on-year increase of 5.09%, and textile exports amounted to approximately RMB688.797 billion, moderately up by 4.9% year on year. It was optimistic that China's domestic consumer market had started to grow steadily since the end of 2014, with a year-on-year increase of 10.9% of total retail sales of social consumer goods with regard to apparel, footwear, hats and knitting. It is expected that China's textile and apparel industry will be able to withstand the impact of fluctuation of the external economy with the growth of domestic consumption and exports.

China's textile industry remained weak. As the PRC government cancelled its national cotton temporary reserve policy and did not have a detailed full scale of direct subsidies policy in place, the cotton textile industry experienced a period of uncertainty and sluggish growth in the first half of 2014. From 2012 to 2014, medium-to-low end orders shifted to Southeast Asia, Bangladesh and even West African countries where the costs of raw materials, labour and the tax rates were lower. Since January 2015, with stronger USD against RMB, China's textile and apparel export industry has encountered increasing difficulties, and the costs in respect of export order intake were 10% compared to that of previous days. Given various unfavourable factors, the growth rate of China's textile industry production was slower in 2014 compared to the previous year. According to the statistics of National Bureau of Statistics of China, the year-on-year growth rate of the added value of the textile industry production in 2014 was only 7.4%, down from 8.7% of the previous year. The slowdown in growth of the textile industry production was mainly attributable to the general decline in output growth of major categories of products, such as fiber, yarn, cloth and apparel.

BUSINESS REVIEW

During the year under review, the Group has geared up and prepared for the upcoming growth in demands for functional fabrics and functional innerwear. Despite a challenging operating environment, the Group continued to invest in advanced and environmental-friendly production machinery to further improve production efficiency, and optimise the allocation of labour during its production process in order to cope with the increasing labour costs and provide the Group with a pragmatic production base. In the meantime, the Group further devoted itself to the research and development of new products and enhancement of the environmental protection quality of its functional fabrics products catering for the rapidly expanding market demand in leisure, home and sports markets.

In order to increase business profitability in the long run, the Group has started to restructure its existing customer base by cutting back orders with low gross margin from customers in the United States, and proactively building a bigger quality customer base during the year under review. The Group looked forward to attracting more customers across the world in the coming years and actively promoting quality functional fabrics and innerwear products in those markets, which will further increase the gross margin of the Group. To seize the growth momentum in China, the Group will continue to strongly promote domestic sales. During the year under review, the Group recorded a net profit growth of 5.3% to RMB25.7 million (2013: RMB24.4 million) despite a fall in turnover of approximately 16.6% to RMB453.5 million, which proved that the Group was able to cope with challenges arising from downward product prices in the domestic market, and to maintain a stable gross margin.

During the year under review, the revenue attributed from functional fabrics and functional innerwear were RMB179.5 million and RMB200.1 million, respectively. In order to expand its market share, the Group was actively identifying new customers in the European market and secured orders from Asian customers that demand for quality functional fabrics and innerwear products. Japan remained the Group's major exporting country. Meanwhile, the performance of domestic functional fabrics market was encouraging and showed signs of room for further development. The Group, as a vertically integrated manufacturer of functional fabrics and innerwear products, is currently a supplier of functional fabrics to many famous brands in the world and an OEM innerwear supplier for numerous major international clothing brands.

With the increasing awareness of environmental protection, there is a global response to utilising environmental friendly and healthy "green" functional fabrics to manufacture clothings, and emphasising on quality and functional fabrics. Driven by the demand for "Home ECO" (home environment protection) merchandise which was prevalent in Japan, the Group's major products, functional fabrics and functional innerwear, successfully recorded steady growth during the year under review. The Group noted that there are growing demands on the quality, function and design of innerwear products from consumers, which are driving their buying intention. Apart from that, the growing acceptance of high quality innerwear products, especially lingerie, in developing countries has sparked growth in demand. According to Frost & Sullivan Report, the retail revenue of the global lingerie market is expected to grow from US\$65.7 billion in 2012 to US\$82.1 billion in 2016, with a huge expansion in China's market share. During the year under review, the Group continued to maintain long-term and stable business relationships with a couple of apparel and innerwear brands. The Group will actively explore its business of functional fabrics and functional innerwear products to seize the opportunities.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

The following table sets forth a breakdown of the Group's revenue by knitted fabrics and innerwear products and as a percentage of the Group's total revenue for the year ended 31 December 2014, with corresponding comparative figures for the year ended 31 December 2013:

	Year ended 31 December			
	2014 RMB'000	2014 %	2013 RMB'000	2013 %
Knitted fabrics				
General fabrics	11,626	2.6	11,877	2.2
Functional fabrics	179,545	39.6	171,191	31.5
Sub-total	191,171	42.2	183,068	33.7
Innerwear products				
General innerwear	62,239	13.7	153,514	28.2
Functional innerwear	200,066	44.1	207,206	38.1
Sub-total	262,305	57.8	360,720	66.3
Total	453,476	100.0	543,788	100.0

For the year ended 31 December 2014, the Group recorded a revenue of approximately RMB453.5 million (2013: RMB543.8 million), representing a decrease of approximately RMB90.3 million, or approximately 16.6%. The sales volume of general fabrics, functional fabrics, general innerwear and functional innerwear for the year ended 31 December 2014 were approximately 273 tons, 2,139 tons, 4.4 million pieces and 12.2 million pieces respectively (2013: approximately 200 tons, 2,176 tons, 14.8 million pieces and 11.4 million pieces respectively). The decrease of revenue was mainly due to the decrease in sales of general innerwear products from approximately RMB153.5 million in 2013 to approximately RMB62.2 million in 2014.

MANAGEMENT DISCUSSION AND ANALYSIS

Sales of knitted fabrics amounted to approximately RMB191.2 million (2013: RMB183.1 million) representing approximately 42.2% (2013: 33.7%) of the total revenue for the year ended 31 December 2014. The increase in sales of knitted fabrics was mainly contributed by the increase in sales of functional fabrics products. Although the sales volume of functional fabrics products decreased slightly from 2,176 tons in 2013 to 2,139 tons in 2014, the total sales increased to approximately RMB179.5 million (2013: RMB171.2 million) as the unit selling price in 2014 increased. The increase in the unit selling price and the total sales of knitted fabrics was mainly due to the Group's effort to promote the functional fabrics products. Sales to branded customers increased for the year ended 31 December 2014 and those customers are targeting functional fabrics with new and advanced functions and better quality fabrics. As the above mentioned functional fabrics products have a higher average unit selling price, the overall unit selling price of functional fabrics increased.

Sales of innerwear products amounted to approximately RMB262.3 million (2013: RMB360.7 million), representing approximately 57.8% (2013: 66.3%) of the total revenue for the year ended 31 December 2014. The decrease in sales of innerwear products in the amount of approximately RMB98.4 million, or approximately 27.3%, for the year ended 31 December 2014 was mainly due to the decrease in sales of general innerwear to US customers in 2014. The sales volume of innerwear products decreased from approximately 26.2 million pieces in 2013 to approximately 16.6 million pieces in 2014. The sales volume as well as the sales of general innerwear products decreased by approximately 10.4 million pieces and RMB91.3 million to 4.4 million pieces and RMB62.2 million as compared to 2013 (2013: 14.8 million pieces and RMB153.5 million). As the profit margin of the general innerwear products was relatively lower than that of the functional innerwear products, during the year, the Group has given up certain customers of general innerwear products to focus on the customers of the functional innerwear products. The sales volume of functional innerwear products increased to approximately 12.2 million pieces in 2014 (2013: 11.4 million pieces).

Cost of sales

Cost of sales decreased by approximately 19.0% from approximately RMB422.0 million for the year ended 31 December 2013 to approximately RMB342.0 million for the corresponding year ended in 2014. However, the average unit production costs of innerwear products and knitted fabrics of the Group in 2014 were higher than that in 2013, which was mainly due to the increase in average unit cost for raw material and increase in average unit manufacturing overhead. The decrease in overall cost of sales was mainly due to the decrease in sales volume of general innerwear products.

The decrease in cost of general innerwear products of approximately RMB84.0 million outweighed the increase in cost of sales of functional innerwear products and knitted fabrics products with total amount of approximately RMB4.0 million. Thus, the overall cost of sales of the Group for the year ended 31 December 2014 decreased.

MANAGEMENT DISCUSSION AND ANALYSIS

Gross profit and gross profit margin

Gross profit decreased by approximately RMB10.3 million, or approximately 8.4%, from approximately RMB121.8 million for the year ended 31 December 2013 to approximately RMB111.5 million for the corresponding year ended in 2014. The Group's gross profit margin increased from approximately 22.4% for the year ended 31 December 2013 to approximately 24.6% for the corresponding year ended in 2014 mainly due to the change in products mix resulted from the change in customers portfolio. Sales of functional innerwear and fabrics products with higher gross profit margin represented 83.7% of the total sales in 2014 (2013: 69.6%).

The Group's gross profit and gross profit margins by products for the year ended 31 December 2014, with corresponding comparative figures for the year ended 31 December 2013:

	Year ended 31 December			
	2014	2014	2013	2013
	Gross profit	Gross profit	Gross profit	Gross profit
	RMB'000	margins	RMB'000	margins
		%		%
Knitted fabrics				
General fabrics	1,215	10.5	1,620	13.6
Functional fabrics	42,863	23.9	42,790	25.0
Sub-total	44,078		44,410	
Innerwear products				
General innerwear	6,940	11.2	14,170	9.2
Functional innerwear	60,479	30.2	63,202	30.5
Sub-total	67,419		77,372	
Total	111,497	24.6	121,782	22.4

Other income and other gains

Other income and other gains amounted to approximately RMB2.3 million (2013: RMB3.3 million) for the year ended 31 December 2014 which were mainly interest income, sample sales income and sales of scarp materials. The decrease in other income and other gains was mainly due nil government grants were received by the PRC subsidiaries in 2014 (2013: approximately RMB1.6 million). Please refer to note 9 to the consolidated financial statements for details.

Selling and distribution expenses

Selling and distribution expenses decreased by approximately RMB11.6 million to approximately RMB11.3 million (2013: RMB22.8 million) for the year ended 31 December 2014, primarily due to the decrease of transportation cost from approximately RMB8.4 million in 2013 to approximately RMB2.4 million in 2014. In 2013, the Group incurred transportation expense for shipping the products to certain US customers. The decrease in transportation cost was mainly due to the termination of sales to those US customers in 2014.

Administrative expenses

Administrative expenses increased 3% to approximately RMB56.3 million (2013: RMB54.6 million) for the year ended 31 December 2014. The increase in administrative expenses was mainly due to the increase in salaries and welfare of approximately RMB4.5 million for the administrative staff.

Finance costs

Finance costs increased to approximately RMB4.7 million (2013: RMB3.3 million) for the year ended 31 December 2014 primarily due to the Group's increase in average bank borrowing during 2014.

Profit before tax

The Group's profit before tax decreased to approximately RMB41.5 million (2013: RMB44.4 million) for the year ended 31 December 2014 primarily due to the decrease in revenue and gross profit.

Income tax expense

Income tax expense decreased by RMB4.1 million to approximately RMB15.9 million (2013: RMB20.0 million) for the year ended 31 December 2014. The Group's effective tax rate for the year ended 31 December 2014 was approximately 38.2%, as compared to approximately 45.0% for the corresponding year in 2013. The decrease in effective tax rate was due to less tax loss not recognised in the Group's subsidiaries for the year ended 31 December 2014 when comparing to the year ended 31 December 2013.

Profit for the year and profit margin

The Group's profit for the year increased by approximately RMB1.3 million, or approximately 5.3%, from approximately RMB24.4 million for the year ended 31 December 2013 to approximately RMB25.7 million for the corresponding year in 2014. Profit margin was approximately 5.7% for the year ended 31 December 2014 (2013: 4.5%).

MANAGEMENT DISCUSSION AND ANALYSIS

Inventories

The inventory balances decreased to approximately RMB54.4 million as at 31 December 2014 (2013: RMB62.8 million). As the sales and production volume in the year 2014 decreased, to better manage the inventory risk, the Group has retained less inventories as at 31 December 2014.

The average inventory turnover days increased to approximately 63 days (2013: 48 days) for the year ended 31 December 2014 as the production and sales of functional products, which have a relatively longer production lead-time than general products, increased in 2014.

Trade and bills receivables

Trade receivables increased to approximately RMB80.5 million (2013: RMB69.6 million) as at 31 December 2014, primarily due to an increase in the sales to domestic customers whose settlement periods are longer than those granted to Japanese and US customers.

The average trade receivables turnover days increased to approximately 61 days (2013: 45 days) for the year ended 31 December 2014 as the sales to domestic customers increased. The trade receivables turnover days still fall within the credit terms granted to the customers of the Group.

Trade and bills payables

Trade and bills payables increased to approximately RMB64.3 million (2013: RMB55.6 million) as at 31 December 2014. The average turnover days for trade payables slightly increased to approximately 64 days (2013: 42 days) for the year ended 31 December 2014 which were in line with the trade credit periods given by the suppliers of the Group.

Liquidity and financial resources

The Group's principal sources of working capital included cash flow generated from the sale of its products and bank borrowings. As at 31 December 2014, the Group's current ratio (calculated as current assets divided by current liabilities) was 1.18 (as at 31 December 2013: 1.20). As at 31 December 2014, the Group had cash and cash equivalents of approximately RMB51.9 million (as at 31 December 2013: RMB30.9 million) and short-term bank loans of approximately RMB88.2 million (as at 31 December 2013: RMB67.8 million). As at 31 December 2014, the Group's gearing ratio (calculated as total debts as at year end divided by total assets for the year x 100%, while debts are defined to include current and non-current interest-bearing borrowings) measured on the basis of total bank loans was approximately 19.5%, as compared to approximately 18.0% as at 31 December 2013.

MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 December 2014, the Group had no fixed rate bank loans (2013: Nil) and variable rate bank loans of approximately RMB88.2 million (2013: RMB72.8 million). The effective interest rates on the Group's variable-rate bank borrowings ranged from 5.6% to 8.96% per annum as at 31 December 2014 (2013: variable-rate: 6.30% to 8.96% per annum, respectively). During the year under review, there was no material change to the Group's funding and treasury policy.

The majority of the Group's funds have been deposited in banks in the PRC and licensed banks in Hong Kong. The management believes that the Group possesses sufficient cash and cash equivalents to meet its commitments and working capital requirements in the next financial year.

The Group continues to implement prudent financial management policies and monitor its capital structure based on the ratio of total liabilities to total assets.

Interest rate and foreign currency exposure

The Group is exposed to cash flow interest rate risks in relation to variable-rate interest-bearing borrowings. The restricted bank deposits and bank balances also expose the Group to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on bank balances. The Group historically has not used any financial instruments to hedge potential fluctuations in interest rates. The management considers that the exposure of the restricted bank deposits and bank balances to cash flow interest rate risk is not significant as the Group do not anticipate significant fluctuation in the interest rate on bank deposits. To mitigate the impact of interest rate fluctuations, the Group will manage the interest expenses by financing with both fixed and variable rate debts, and will continually assess and monitor the Group's exposure to interest rate risk and will consider other necessary actions when significant interest rate exposure is anticipated.

The Group is exposed to foreign currency risk. A significant proportion of the Group's revenue was denominated in USD and certain trade and other receivables, cash and bank balances, trade and other payables and interest-bearing borrowings are denominated in USD, Japanese yen and HKD respectively, while substantial operating expenses are denominated in RMB, and the Group's reporting currency is RMB.

The Group does not have a foreign currency hedging policy. In the event of currency fluctuations, the Group may have to increase its product pricing to compensate for the increase in cost of production. This would lower the Group's market competitiveness, on a price basis, for its products and could result in a decrease in revenue. In the future, the management will monitor foreign exchange exposure and will consider hedging or factoring significant foreign currency exposure should the need arise.

The Group did not engage in any material acquisitions or disposals during the year ended 31 December 2014.

MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECT

In recent years, with the rise of living standards, the concept of consumption was being changed. Since the launching of 12th five-year Plan, which aims to build China a textile power, the country has fully implemented all tasks required by “50+110” in the “Outline for Science & Technology Progress of Textile Industry in the 12th Five-Year Plan Period”. A significant progress in the technology within the industry has been made, and core competitiveness has greatly improved. It was also explicitly indicated in the plan issued at the 18th National Congress of the Communist Party of China that importance be placed on the functional textile industry. With the wide-spread application of functional textile products, their usage has increased substantially in recent years. According to the statistics, the current global sales of functional fabrics has reached roughly USD50.0 billion annually, and the domestic demand in China for textile products amounted to RMB50.0 billion. It is expected that sales of high value-added textile products, especially functional textile products, will expand by 3.8% annually in the future, and with the launching of new technologies and products, the industry outlook remains positive.

In the context of energy saving and emissions reduction, global customers are paying more attention to a healthy and environmental-friendly lifestyle with low carbon emission, and the position of functional fabrics and innerwear products embodying this concept is ascending. For the research and development of functional fabrics, the Group has devoted itself to exploring new products and enhancing environmental protection quality of its products. In view of an enormous market for new products under research and development featuring, among other things, comfort, regeneration, environmental protection, antibiotic and negative ion, the Group believes innovative ideas will create new opportunities.

For further business expansion and promotion of environmental-friendly functional fabrics, the Group will continue to penetrate into new regions and markets and to optimise its customer mix. It is anticipated that increasing orders from such new markets allows the Group to have access to higher profit margin. Focusing on more stable markets, such as China and Japan, the Group expects to proactively seek orders from rapidly-developing European and emerging countries with its rich experience and high reputation within the industry in order to boost total production and sales of functional fabrics.

For future development, the Group will continue to pragmatically expand its production capacity, upgrade its equipment, improve its production automation capabilities and adopt more advanced production technologies. The Group will strenuously work on raising its production efficiency and lowering its operating costs, and will grow its production capacity to keep pace with the Group’s development. It is the goal to bring more significant economic benefits upon scale expansion in the future. The Group also considers gradual development of its own apparel and fabric brands, to better leverage its advantage as a one-stop provider in order to capture market opportunities and to achieve breakthroughs in its future growth.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Board is pleased to present this report in the Group's annual report for the year ended 31 December 2014.

The Company places high value on its corporate governance practice and the Board firmly believes that a good corporate governance practice can improve accountability and transparency for the benefit of its shareholders. The Board has adopted the code provisions of the Corporate Governance Code (the "**Code Provision(s)**") set out in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange (the "**Listing Rules**"). The Board also reviews and monitors the practices of the Company from time to time with an aim to maintain and improve high standards of corporate governance practices. During the year ended 31 December 2014, the Company has complied with the Code Provisions except for the deviation set out below:

Code Provision A.2.1

Code Provision A.2.1 provides that the roles of chairman and chief executive should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive should be clearly established and set out in writing.

At present, the Company does not have any officer with the title of chief executive. The duties of a chief executive are undertaken by Mr. Wong Kin Ling. Although this deviates from the practice under Code Provision A.2.1, where it provides that the two positions should be held by two different individuals, as Mr. Wong Kin Ling has considerable and extensive knowledge and experience in the industry and in enterprise operation and management in general, the Board believes that it is in the best interest of the Company and its shareholders as a whole to continue to have Mr. Wong Kin Ling as chairman so that the Board can benefit from his knowledge of the business and his capability in leading the Board in the long term development of the Group. From a corporate governance point of view, the decisions of the Board are made collectively by way of voting and therefore the chairman should not be able to monopolise the voting of the Board. The Board considers that the balance of power between the Board and the senior management can still be maintained under the current structure. The Board shall review the structure from time to time to ensure appropriate action is taken should the need arise.

BOARD

Responsibilities

The Board is responsible for leading and controlling the Company and overseeing the Group's businesses, strategic decisions and financial performance as well as its overall corporate governance functions. The management is delegated the authority and responsibility by the Board for the management of the Group under the leadership of the chief executive officer. In addition, the Board has also delegated various responsibilities to the Audit Committee, the Remuneration Committee and the Nomination Committee (collectively the "**Committees**"), which assist the Board in discharging its duties and overseeing particular aspects of the Group's activities.

Types of decision taken by the Board include, among others, determines the Group's mission and corporate policy, provide its strategic direction and is responsible for the approval of strategic plans, approves the Company's financial statements, quarterly, interim and annual reports, determines director selection, orientation and evaluation as well as regularly evaluates its own performance and effectiveness.

The day-to-day management, administration and operation of the Company are delegated to the senior management, with division heads responsible for different aspects of the business.

Major corporate matters that are specifically delegated by the Board to the senior management include preparation of interim and annual reports and announcements, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures and compliance with relevant laws, rules and regulations.

Composition

The composition of the Board reflects the necessary balance of skills and experience desirable for effective leadership of the Company and independence in decision making.

The Board currently comprises four executive Directors, namely Mr. Wong Kin Ling, Madam Hung Kin, Mr. Wang Shao Hua and Mr. Wei Jin Long and three independent non-executive Directors, namely Mr. Wang Jin Tang, Ms. Tay Sheve Li and Dr. Chan Ah Pun. The biographies of the Directors are set out under the section headed "Biographies of Directors and Senior Management" of this annual report.

The independent non-executive Directors bring a wide range of business and financial expertise, experience and independent judgment to the Board. Through active participation in Board meetings, taking the lead in managing issues involving potential conflict of interests and serving on Board committees, all non-executive Directors make various contributions to the effective direction of the Company.

CORPORATE GOVERNANCE REPORT

The Board is also characterised by significant diversity whether considered on terms of gender, professional backgrounds and skills. The Board formalised its existing diversity through the introduction of a board diversity policy, which is expected to bring further diversity in respect of business and financial experience to the Board for contributing to the effective direction of the Board.

Save as disclosed, the Board members have no financial, business, family or other material/relevant relationships with each other. Such balanced board composition is formed to ensure that strong independence exists across the Board.

During the year ended 31 December 2014 and up to the date of this report, the Board has at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive directors with at least one independent non-executive director possessing appropriate professional qualifications, or accounting or related financial management expertise.

The Company has received annual confirmation of independence from the three independent non-executive Directors. The Board has assessed their independence and is satisfied that all the independent non-executive Directors are in full compliance with the independence guidelines set out in Rule 3.13 of the Listing Rules.

The term of office for the independent non-executive Directors is subject to retirement from office by rotation and is eligible for re-election in accordance with the provisions of the Company's articles of association. At every annual general meeting, one-third of the Directors for the time being, or if their number is not three or a multiple of three, then the number nearest to but not less than one-third shall retire from office. As such, the Company considers that such provisions are sufficient to meet the underlying objectives of the relevant provisions of the Corporate Governance Code.

Training for Directors

Every newly appointed Director shall receive an information package from the Company on the first occasion of his appointment. This information package is a comprehensive, formal and tailored induction on the responsibilities and on-going obligations to be observed by the Director. In addition, the package includes materials on the operations and business of the Group. The Company will subsequently arrange for briefing as is necessary to ensure that the newly appointed Directors have a proper understanding of the business and operations of the Group and that they are aware of their responsibilities under the relevant laws, rules and regulations.

CORPORATE GOVERNANCE REPORT

The Directors are regularly briefed on the amendments to or updates on the relevant laws, rules and regulations. In addition, Directors are encouraged to enroll and attend in a wide range of professional development courses and seminars relating to the Listing Rules and corporate governance practices organised by professional bodies so that they can continuously update and further improve their relevant knowledge and skills. From time to time, Directors are provided with written training materials to develop and refresh their professional skills.

According to the records maintained by the Company, the Directors received the following training with an emphasis on the roles, functions and duties of a director of a listed company in compliance with the Code Provisions on continuous professional development during the year ended 31 December 2014:

Board meetings

Board meetings are held regularly, at least four times a year at approximately quarterly intervals for reviewing and approving the financial and operating performance, and considering and approving the overall strategies and policies of the Company. The attendance record of each member of the Board is set out in the section headed "Board Committees".

All Directors have access to the advice and services of the company secretary. All Directors have access to the senior management for enquiries and information when required. The Directors, upon reasonable requests, may also seek independent professional advice at the Company's expense.

CORPORATE GOVERNANCE REPORT

Practices and conduct of meetings

Draft agenda of all Board meetings are made available to the Directors in advance.

Where practicable, notices of regular Board meetings and Committee meetings are served on all Directors at least 14 days before the meetings. Board papers are sent to all Directors at least 3 days before each Board meeting or Committee meeting to keep the Directors apprised of the latest developments and the financial position of the Company and to enable them to make informed decisions.

The Company Secretary is responsible for keeping minutes of all Board meetings and Committee meetings. Draft minutes are normally circulated to the Directors for comments within a reasonable time after each meeting and the final version is open for Directors' inspection.

According to current Board practice, any material transaction involving conflict of interests of a substantial shareholder or a Director will be considered and dealt with by the Board at a duly convened Board meeting. The Company's articles of association also contain a provision requiring the Directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such Directors or any of their associates (as defined under the Listing Rules) have a material interest.

Directors and officers liability insurance

Liability insurance for Directors and senior management of the Company was arranged by the Company with appropriate coverage for certain legal liabilities which may arise in the course of performing their duties.

Corporate governance functions

The Board has adopted the terms of reference on corporate governance functions. The terms of reference of the Board in respect of corporate governance function are summarised as follows:

- (a) to develop and review the Company's policies and practices on corporate governance;
- (b) to review and monitor the training and continuous professional development of Directors and senior management;
- (c) to review and monitor the Company's policies and practices to ensure compliance with legal and regulatory requirements;
- (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and
- (e) to review the Company's compliance with the Code Provisions and its disclosure requirements in the Corporate Governance Report.

The work performed by the Board on corporate governance functions during the year ended 31 December 2014 included developing and reviewing the Company's policies on corporate governance and making recommendations.

Model Code for Directors' Securities Transactions

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding Directors' securities transactions. The Company confirms that, having made specific enquiry of all the Directors, the Directors have complied with the required standards as set out in the Model Code during the year ended 31 December 2014.

BOARD COMMITTEES

The Board established the Audit Committee and Remuneration Committee on 19 August 2011 and the Nomination Committee on 27 March 2012 with clearly-defined written terms of reference. The main roles and responsibilities of the Committees, including all authorities delegated to them by the Board, are set out in the respective terms of reference. The independent views and recommendations of the Committees ensure proper control of the Group and the continual achievement of high corporate governance standards expected of a listed company. The chairman of each Committee reports the outcome of the Committee's meetings to the Board for further discussions and approvals.

The majority of the members of each Committee are independent non-executive Directors. The Committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice at the Company's expenses.

The individual attendance records of each Director at the meetings of the Board, Audit Committee, Remuneration Committee, Nomination Committee and general meeting during the year ended 31 December 2014 are set out below:

CORPORATE GOVERNANCE REPORT

Audit Committee

The Audit Committee comprises three independent non-executive Directors, namely, Mr. Wang Jin Tang, Ms. Tay Sheve Li and Dr. Chan Ah Pun. The Audit Committee is chaired by Ms. Tay Sheve Li, who possesses the appropriate professional qualifications and extensive experience in, and knowledge of, finance and accounting as required under Rule 3.10 of the Listing Rules. All Audit Committee members hold the relevant industry and financial experience necessary to advise the Board on strategies and other related matters. None of the Audit Committee members is a former partner of the Company's existing external auditors.

The Audit Committee is responsible for making recommendations to the Board on the appointment, reappointment and removal of the external auditors, and approving the remuneration and terms of engagement of the external auditors, and any questions of resignation or dismissal of those auditors; monitoring the integrity of the financial statements, the annual report and accounts, half-year report and, if prepared for publication, quarterly reports, and reviewing significant financial reporting judgments contained in them; and reviewing the financial controls, internal control and risk management systems.

The Group's audited financial statements and annual report for 2014 had been reviewed by the Audit Committee, which was of the opinion that the preparation of such statements and report complied with the applicable accounting standards and requirements and that adequate disclosure had been made.

The Audit Committee has not taken any different view from the Board regarding the selection, appointment, resignation or dismissal of the external auditors.

At the committee meeting held on 26 March 2015, the Audit Committee concluded that it was satisfied with its review of the audit fee, process and effectiveness, independence and objectivity of SHINEWING (HK) CPA Limited. The Audit Committee has therefore made the recommendation to the Board that SHINEWING (HK) CPA Limited be reappointed as the Group's external auditors at the forthcoming annual general meeting.

The Audit Committee met 2 times during the year ended 31 December 2014, in which the Audit Committee members reviewed the Company's internal controls and risk management process, financial reporting and compliance procedures and financial results and reports and assessed the external auditors for re-appointment. The Audit Committee meeting was attended by the Audit Committee members, the chief financial officer and the external auditors. The attendance record of each member of the Audit Committee is set out in the section headed "Board Committees".

Remuneration Committee

The Remuneration Committee comprises three independent non-executive Directors, namely Mr. Wang Jin Tang, Ms. Tay Sheve Li and Dr. Chan Ah Pun, and one executive Director, Mr. Wong Kin Ling. The Remuneration Committee is chaired by Mr. Wang Jin Tang. The Remuneration Committee is responsible for, among other functions, making recommendations to the Board on the policy and structure for all remuneration of the Directors and senior management and on the establishment of a formal and transparent procedure for developing policy on such remuneration; determining the specific remuneration packages of all the executive Directors and senior management, including benefits in kind, pension rights and compensation payments, including any compensation payable for loss or termination of their office or appointment, and making recommendations to the Board of the remuneration of the non-executive Directors; and reviewing and approving performance-based remuneration by reference to corporate goals and objectives resolved by the Board from time to time.

The Remuneration Committee met 1 time during the year ended 31 December 2014, in which the Remuneration Committee members reviewed the existing remuneration policy and structure of the Company and the remuneration packages and discretionary bonus of the Directors and senior management for 2014 and made recommendation to the Board to approve the proposals on the fees of the independent non-executive Directors. The attendance record of each member of the Remuneration Committee is set out in the section headed "Board Committees".

Nomination Committee

The Nomination Committee comprises two independent non-executive Directors, namely, Dr. Chan Ah Pun and Ms. Tay Sheve Li, and one executive Director, Mr. Wong Kin Ling. The Nomination Committee is chaired by Dr. Chan Ah Pun.

The Nomination Committee is responsible for formulating the nomination policy for consideration of the Board and implementing the nomination policy laid down by the Board; reviewing the structure, size and composition of the Board at least annually and making recommendations on any proposed changes to the Board to complement the Company's corporate strategy; identifying and nominating individuals suitable qualified to become the members of the Board and selecting or making recommendations to the Board on the selection of individuals nominated for directorships; assessing the independence of independent non-executive directors; making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors; and conforming to any requirement, direction, and regulation that may from time to time be prescribed by the Board or contained in the memorandum and articles of association of the Company or imposed by legislation.

During the year ended 31 December 2014, 1 meeting was held by the Nomination Committee. The major work performed by the Nomination Committee during the year included reviewing the Nomination Committee's terms of reference, reviewing the policy relating to term of appointment of the independent non-executive Directors, and recommending to the Board for approval of the continuation of the independent non-executive directors' term of appointment. The attendance record of each member of the Nomination Committee is set out in the section headed "Board Committees".

CORPORATE GOVERNANCE REPORT

Company Secretary

The company secretary of the Company (the “**Company Secretary**”), namely Mr. Lee Yin Sing, is a full time employee of the Company and has day-to-day knowledge of the Company’s affairs. The Company Secretary reports to the Chairman and is responsible for advising the Board on governance matters. During the year ended 31 December 2014, the Company Secretary has confirmed that he has taken no less than 15 hours of relevant professional training. The details of the Company Secretary are set out under the section headed “Biographies of Directors and Senior Management” of this annual report.

RESPONSIBILITIES IN RESPECT OF FINANCIAL STATEMENTS

The senior management has provided such explanation and information to the Board so as to enable the Board to make an informed assessment of the financial and other information put before the Board for approval.

The Board is responsible for presenting a clear and balanced view of the Company’s annual and interim reports, inside information announcements, disclosures required under the Listing Rules, and other regulatory requirements. The Directors acknowledge their responsibility for preparing the consolidated financial statements for the year 2014.

AUDITORS’ REMUNERATION

During the year under review, the remuneration paid/payable to the external auditors of the Company in respect of statutory audit service and agreed-upon procedures were approximately RMB638,000 and RMB190,000, respectively.

INTERNAL CONTROL

The Board is responsible for internal control of the Group and for reviewing its effectiveness. The Board requires the senior management to establish and maintain sound and effective internal controls.

The internal control framework includes central direction, resources allocation and risk management of the activities of various business units, supported by the human resources, information systems and financial practice. As such, the Group has a clear organisational structure including appropriate segregation of duties and reporting systems. Limits of authorities have been established. Starting from the top, there is a list of matters reserved for Board approval. In carrying out key functions, senior management personnel are assigned levels of authority and accountability commensurate with their positions and duties. There are also relevant policies and procedures applicable to all business units to guide their business operations. All business units are required to produce annual budgets for the senior management’s approval. The heads of all business units are required to assess the risk factors attributed to their businesses. In addition, all business units shall submit monthly management reports with comparisons between actual and budget results and give explanations and solutions for major variances.

Extensive financial controls, procedures, self-assessment exercises and risk activities are reviewed by the Group's finance department, which is responsible for reviewing the Group's internal control systems, operational efficiency and compliance with the policies and procedures on a regular basis, and ensuring existence of an effective internal control system in all business units. The finance department performs independent reviews of risks associated with and controls over principal operations and critical applications, and reports to the Audit Committee with its findings and makes recommendations to improve the internal controls of the Group.

All key controls within the framework will be tested periodically by the finance department. External auditors will also test key controls for those processes which are most critical to producing complete and accurate financial reports. Semi-annual confirmations from chief executives of principal subsidiaries are obtained as to whether the internal controls are working properly and if any remedial actions are required on areas where control weaknesses are noted. External auditors also advise the senior management on whether the controls are in place and effective to ensure a proper financial controlling and reporting process of the Group.

With respect to the procedures and internal controls for the handling and dissemination of inside information, the Group conducts its affairs with close attention to the inside information provisions under the Securities and Futures Ordinance and the Listing Rules, and has also implemented guidelines and procedures for dealings in its securities by the Directors.

During the year 2014, the Board, through the Audit Committee, had conducted review on the effectiveness of the internal control system of the Company, and considered the internal control system to be effective and adequate and concluded that there were no significant areas of concern which might affect shareholders' interests.

COMMUNICATIONS WITH SHAREHOLDERS

The Group reports to its shareholders twice a year. Interim and annual results are announced as early as possible to keep shareholders informed of the Group's performance. The general meetings of the Company provide a forum for communication between the shareholders and the Board. All shareholders are encouraged to attend the annual general meeting to discuss the progress of the Group's business. The chairman of the Board and the chairmen of the Audit Committee, the Nomination Committee and the Remuneration Committee, or in their absence, other members of the respective Committees, and where applicable, the independent Board committee, are available to answer questions at the general meetings. Separate resolutions are proposed at the general meetings on each substantial issue, including re-election of Directors. The Company's website, which contains corporate information, interim and annual reports, announcements and circulars issued by the Company as well as the recent developments of the Group, enables the shareholders to access information on the Group on a timely basis.

INDEPENDENT AUDITOR'S REPORT

SHINEWING (HK) CPA Limited
43/F, The Lee Gardens
33 Hysan Avenue
Causeway Bay, Hong Kong

TO THE SHAREHOLDERS OF GRAND CONCORD INTERNATIONAL HOLDINGS LIMITED

(Incorporated in the British Virgin Islands with limited liability)

We have audited the consolidated financial statements of Grand Concord International Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 43 to 115, which comprise the consolidated statement of financial position as at 31 December 2014, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

INDEPENDENT AUDITOR'S REPORT

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2014 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

(a) Statutory reserve

The statutory reserve, which is non-distributable, is appropriated from the profit after taxation of the Group's PRC subsidiaries. In accordance with the relevant laws and regulations of the PRC and the articles of association of the Group's PRC subsidiaries, they are required to appropriate 10% of its net profits determined in accordance with China Accounting Standards for Enterprises issued by the Ministry of Finance of China, after offsetting any prior years' losses, to the statutory surplus reserve. When the balance of such a reserve reached 50% of the respective companies' registered capital, any further appropriation is optional.

(b) Special reserve

Special reserve represents the difference between the aggregate amount of issued and fully paid share capital of the subsidiary acquired by the Company and the nominal amount of the shares issued by the Company in exchange for the entire equity interest in the subsidiary as part of the group reorganisation.

(c) Other reserve

Other reserve represents the difference between the fair value of past services rendered by the employees and the net present values of the consideration payable by the employees in respect of the share transferred. The details of transaction are set out in note 29.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

1. GENERAL INFORMATION AND BASIS OF PRESENTATION OF CONSOLIDATION

Grand Concord International Holdings Limited (the “**Company**”), which acts as an investment holding company, was incorporated in the British Virgin Islands (the “**BVI**”) with limited liability under the Business Companies Act of the BVI (2004) (the “**Companies Act**”) on 8 December 2010. The Company was listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 24 November 2011. The address of the registered office and principal place of business of the Company is disclosed in the “Corporate Information” section in the Annual Report.

The Company and its subsidiaries (the “**Group**”) are engaged in the manufacturing of innerwear products and knitted fabrics. The ultimate holding company of the Company is Global Wisdom Capital Holdings Limited (“**Global Wisdom**”), a limited liability company incorporated in the BVI.

The consolidated financial statements are presented in Renminbi (“**RMB**”), which is also the functional currency of the Company.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”)

In the current year, the Group has applied the following new and revised HKFRSs, which include HKFRSs, Hong Kong Accounting Standards (“**HKAS(s)**”) and Interpretations (“**Int(s)**”), issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”).

Amendments to HKFRS 10, HKFRS 12 and HKAS 27	Investment Entities
Amendments to HKAS 32	Offsetting Financial Assets and Financial Liabilities
Amendments to HKAS 36	Recoverable Amount Disclosures for Non-Financial Assets
Amendments to HKAS 39	Novation of Derivatives and Continuation of Hedge Accounting
Hong Kong (IFRS Interpretations Committee) (“ HK(IFRIC) ”) – Int 21	Leases

Except as described below, the application of the new and revised HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

Amendments to HKFRS 10, HKFRS 12 and HKAS 27 Investment Entities

The Group has applied amendments to HKFRS 10, HKFRS 12 and HKAS 27 *Investment Entities* for the first time in the current year. The amendments to HKFRS 10 define an investment entity and introduce an exception to consolidating subsidiaries for an investment entity, except where the subsidiaries provide services that relate to the investment entity’s investment activities. Under the amendments to HKFRS 10, an investment entity is required to measure its interests in subsidiaries at fair value through profit or loss.

To qualify as an investment entity, certain criteria have to be met. Specifically, an entity is required to:

- obtain funds from one or more investors for the purpose of providing them with professional investment management services;
- commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- measure and evaluate performance of substantially all of its investments on a fair value basis.

Consequential amendments to HKFRS 12 and HKAS 27 have been made to introduce new disclosure requirements for investment entities.

As the Company is not an investment entity, the directors of the Company consider that the application of the amendments has had no impact on the disclosures or the amounts recognised in the Group’s consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

Amendments to HKAS 32 Offsetting Financial Assets and Financial Liabilities

The Group has applied amendments to HKAS 32 *Offsetting Financial Assets and Financial Liabilities* for the first time in the current year. The amendments to HKAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of “currently has a legally enforceable right of set-off” and “simultaneous realisation and settlement”.

The amendments have been applied retrospectively. The Group has assessed whether certain of its financial assets and financial liabilities qualify for offset based on the criteria set out in the amendments and concluded that the application of the amendments has had no impact on the amounts recognised in the Group’s consolidated financial statements.

Amendments to HKAS 36 Recoverable Amount Disclosures for Non-Financial Assets

The Group has applied amendments to HKAS 36 *Recoverable Amount Disclosures for Non-Financial Assets* for the first time in the current year. The amendments to HKAS 36 require disclosures on additional information about the fair value measurement when the recoverable amount of impaired assets is based on fair value less costs of disposal. If the recoverable amount is fair value less costs of disposal, an entity shall disclose the level of the fair value hierarchy within which the fair value measurement of the asset or cash generating unit is categorised in its entirety. The Group is required to make additional disclosures for Level 2 and Level 3 of the fair value hierarchy:

- a description of the valuation techniques used to measure the fair value less costs of disposals. If there is any change in valuation techniques, the fact and the reason should also be disclosed;
- each key assumption on which management has based its determination of fair value less costs of disposal;
- the discount rates used in the current and previous measurement if fair value less costs of disposal is measured using a present value technique.

The amendments have been applied retrospectively. The directors of the Company consider that the application of the amendments to HKAS 36 has had no material impact on the disclosures in the Group’s consolidated financial statements.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

Amendments to HKAS 39 Novation of Derivatives and Continuation of Hedge Accounting

The Group has applied amendments to HKAS 39 *Novation of Derivatives and Continuation of Hedge Accounting* for the first time in the current year. The amendments to HKAS 39 introduce an exception to the requirements for the discontinuation of hedge accounting in HKAS 39 if specific conditions are met. The amendments to HKAS 39 state that the novation of a hedging instrument is not be considered an expiration or termination if the novation (a) is required by laws or regulations; (b) results in a central counterparty or an entity acting in a similar capacity becoming the new counterparty to each of the parties to the novated derivative and (c) does not result in changes to the terms of the original over-the-counter derivatives other than the changes directly attributable to the novation. For all other novations outside the scope of the exemption, an entity should assess if they meet the derecognition criteria and the conditions for continuation of hedge accounting.

The amendments have been applied retrospectively. As the Group does not have any derivatives that are subject to novation, the application of the amendments has had no impact on the disclosures or on the amounts recognised in the Group’s consolidated financial statements.

HK(IFRIC) – Int 21 Levies

The Group has applied HK(IFRIC) – Int 21 Levies for the first time in the current year. HK(IFRIC) – Int 21 addresses the issue as to when to recognise a liability to pay a levy imposed by government. The Interpretation defines a levy, and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The Interpretation provides guidance on how different levy arrangements should be accounted for, in particular, it clarifies that neither economic compulsion nor the going concern basis of financial statements preparation implies that an entity has a present obligation to pay a levy that will be triggered by operating in a future period.

HK(IFRIC) – Int 21 has been applied retrospectively. The application of this Interpretation has had no material impact on the disclosures or on the amounts recognised in the Group’s consolidated financial statements.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and revised HKFRSs issued but not yet effective (continued)

HKFRS 9 (2014) Financial Instruments

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include the requirements for the classification and measurement of financial liabilities and for derecognition. In 2013, HKFRS 9 was further amended to bring into effect a substantial overhaul of hedge accounting that will allow entities to better reflect their risk management activities in the financial statements. A finalised version of HKFRS 9 was issued in 2014 to incorporate all the requirements of HKFRS 9 that were issued in previous years with limited amendments to the classification and measurement by introducing a “fair value through other comprehensive income” (“FVTOCI”) measurement category for certain financial assets. The finalised version of HKFRS 9 also introduces an “expected credit loss” model for impairment assessments.

Key requirements of HKFRS 9 (2014) are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 *Financial Instruments: Recognition and Measurement* to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and revised HKFRSs issued but not yet effective (continued)

HKFRS 9 (2014) Financial Instruments (continued)

- In the aspect of impairment assessments, the impairment requirements relating to the accounting for an entity’s expected credit losses on its financial assets and commitments to extend credit were added. Those requirements eliminate the threshold that was in HKAS 39 for the recognition of credit losses. Under the impairment approach in HKFRS 9 (2014) it is no longer necessary for a credit event to have occurred before credit losses are recognised. Instead, expected credit losses and changes in those expected credit losses should always be accounted for. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition and, consequently, more timely information is provided about expected credit losses.
- HKFRS 9 introduces a new model which is more closely aligns hedge accounting with risk management activities undertaken by companies when hedging their financial and non-financial risk exposures. As a principle-based approach, HKFRS 9 looks at whether a risk component can be identified and measured and does not distinguish between financial items and non-financial items. The new model also enables an entity to use information produced internally for risk management purposes as a basis for hedge accounting. Under HKAS 39, it is necessary to exhibit eligibility and compliance with the requirements in HKAS 39 using metrics that are designed solely for accounting purposes. The new model also includes eligibility criteria but these are based on an economic assessment of the strength of the hedging relationship. This can be determined using risk management data. This should reduce the costs of implementation compared with those for HKAS 39 hedge accounting because it reduces the amount of analysis that is required to be undertaken only for accounting purposes.

HKFRS 9 (2014) will become effective for annual periods beginning on or after 1 January 2018 with early application permitted.

The directors of the Company anticipate that the adoption of HKFRS 9 (2014) in the future may have significant impact on amounts reported in respect of the Group’s financial assets and financial liabilities.

Regarding the Group’s financial assets, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and revised HKFRSs issued but not yet effective (continued)

HKFRS 15 Revenue from Contracts with Customers

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Thus, HKFRS 15 introduces a model that applies to contracts with customers, featuring a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognised. The five steps are as follows:

- i) Identify the contract with the customer;
- ii) Identify the performance obligations in the contract;
- iii) Determine the transaction price;
- iv) Allocate the transaction price to the performance obligations; and
- v) Recognise revenue when (or as) the entity satisfies a performance obligation.

HKFRS 15 also introduces extensive qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and the related Interpretations when it becomes effective.

HKFRS 15 will become effective for annual periods beginning on or after 1 January 2017 with early application permitted. The directors of the Company anticipate that the application of HKFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Group’s consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of HKFRS 15 until the Group performs a detailed review.

Annual Improvements to HKFRSs 2010-2012 Cycle

The Annual Improvements to HKFRSs 2010-2012 Cycle include a number of amendments to various HKFRSs, which are summarised below.

The amendments to HKFRS 2 (i) change the definitions of ‘vesting condition’ and ‘market condition’; and (ii) add definitions for ‘performance condition’ and ‘service condition’ which were previously included within the definition of ‘vesting condition’. The amendments to HKFRS 2 are effective for share-based payment transactions for which the grant date is on or after 1 July 2014.

The amendments to HKFRS 3 clarify that contingent consideration that is classified as an asset or a liability should be measured at fair value at each reporting date, irrespective of whether the contingent consideration is a financial instrument within the scope of HKFRS 9 or HKAS 39 or a non-financial asset or liability. Changes in fair value (other than measurement period adjustments) should be recognised in profit and loss. The amendments to HKFRS 3 are effective for business combinations for which the acquisition date is on or after 1 July 2014.

The amendments to HKFRS 8 (i) require an entity to disclose the judgements made by management in applying the aggregation criteria to operating segments, including a description of the operating segments aggregated and the economic indicators assessed in determining whether the operating segments have ‘similar economic characteristics’; and (ii) clarify that a reconciliation of the total of the reportable segments’ assets to the entity’s assets should only be provided if the segment assets are regularly provided to the chief operating decision-maker.

The amendments to the basis for conclusions of HKFRS 13 clarify that the issue of HKFRS 13 and consequential amendments to HKAS 39 and HKFRS 9 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting, if the effect of discounting is immaterial.

The amendments to HKAS 16 and HKAS 38 remove perceived inconsistencies in the accounting for accumulated depreciation/amortisation when an item of property, plant and equipment or an intangible asset is revalued. The amended standards clarify that the gross carrying amount is adjusted in a manner consistent with the revaluation of the carrying amount of the asset and that accumulated depreciation/amortisation is the difference between the gross carrying amount and the carrying amount after taking into account accumulated impairment losses.

Annual Improvements to HKFRSs 2010-2012 Cycle (continued)

The amendments to HKAS 24 clarify that a management entity providing key management personnel services to a reporting entity is a related party of the reporting entity. Consequently, the reporting entity should disclose as related party transactions the amounts incurred for the service paid or payable to the management entity for the provision of key management personnel services. However, disclosure of the components of such compensation is not required.

The directors of the Company do not anticipate that the application of the amendments included in the Annual Improvements to HKFRSs 2010-2012 Cycle will have a material effect on the Group’s consolidated financial statements.

Annual Improvements to HKFRSs 2011-2013 Cycle

The Annual Improvements to HKFRSs 2011-2013 Cycle include a number of amendments to various HKFRSs, which are summarised below.

The amendments to HKFRS 3 clarify that the standard does not apply to the accounting for the formation of all types of joint arrangement in the financial statements of the joint arrangement itself.

The amendments to HKFRS 13 clarify that the scope of the portfolio exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis includes all contracts that are within the scope of, and accounted for in accordance with, HKAS 39 or HKFRS 9, even if those contracts do not meet the definitions of financial assets or financial liabilities within HKAS 32.

The amendments to HKAS 40 clarify that HKAS 40 and HKFRS 3 are not mutually exclusive and application of both standards may be required. Consequently, an entity acquiring investment property must determine whether:

- (a) the property meets the definition of investment property in terms of HKAS 40; and
- (b) the transaction meets the definition of a business combination under HKFRS 3.

The directors of the Company do not anticipate that the application of the amendments included in the Annual Improvements to HKFRSs 2011-2013 Cycle will have a material effect on the Group’s consolidated financial statements.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and revised HKFRSs issued but not yet effective (continued)

Annual Improvement to HKFRSs 2012 – 2014 Cycle

The Annual Improvements to HKFRSs 2012-2014 Cycle include a number of amendments to various HKFRSs, which are summarised below. The amendments to HKFRS 5 clarify that changing from one of the disposal methods (i.e. disposal through sale or disposal through distribution to owners) to the other should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is therefore no interruption of the application of the requirements in HKFRS 5. Besides, the amendments also clarify that changing the disposal method does not change the date of classification.

The amendments to HKFRS 7 clarify that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance for continuing involvement in HKFRS 7 in order to assess whether the additional disclosures for any continuing involvement in a transferred asset that is derecognised in its entirety are required. Besides, the amendments to HKFRS 7 also clarify that disclosures in relation to offsetting financial assets and financial liabilities are not required in the condensed interim financial report, unless the disclosures provide a significant update to the information reported in the most recent annual report.

The amendments to HKAS 19 clarify that the market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.

HKAS 34 requires entities to disclose information in the notes to the interim financial statements ‘if not disclosed elsewhere in the interim financial report’. The amendments to HKAS 34 clarify that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report. The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. If users do not have access to the other information in this manner, then the interim financial report is incomplete.

The directors of the Company do not anticipate that the application of the amendments included in the Annual Improvements to HKFRSs 2012-2014 Cycle will have a material effect on the Group’s consolidated financial statements.

New and revised HKFRSs issued but not yet effective (continued)

Amendments to HKAS 19 Defined Benefit Plans – Employee Contributions

The amendments to HKAS 19 simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. Specifically, contributions that are linked to services are attributed to periods of services as a negative benefit. The amendments to HKAS 19 specifies that such negative benefit are attributed in the same way as the gross benefit, i.e. attribute to periods of services under the plan’s contribution formula or on a straight-line basis.

Besides, the amendments also state that if the contributions are independent of the number of years of employee service, such contributions may be recognised as a reduction of the service cost as they fall due.

The amendments to HKAS 19 are effective for annual periods beginning on or after 1 July 2014 with early application permitted.

The directors of the Company anticipate that the application of the amendments to HKAS 19 will have no material impact on the Group.

Amendments to HKAS 16 and HKAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments to HKAS 16 prohibit the use of revenue-based depreciation methods for property, plant and equipment under HKAS 16. The amendments to HKAS 38 introduce a rebuttable presumption that the use of revenue-based amortisation methods for intangible assets is inappropriate. This presumption can be rebutted only in the following limited circumstances:

- i) when the intangible asset is expressed as a measure of revenue;
- ii) when a high correlation between revenue and the consumption of the economic benefits of the intangible assets could be demonstrated.

The amendments to HKAS 16 and HKAS 38 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments should be applied prospectively.

As the Group use straight-line method for depreciation of property, plant and equipment, the directors of the Company do not anticipate that the application of the amendments to HKAS 16 and HKAS 38 will have a material impact on the Group’s consolidated financial statements.

Amendments to HKAS 16 and HKAS 41 Agriculture: Bearer Plants

The amendments to HKAS 16 and HKAS 41 define bearer plants. Biological assets that meet the definition of bearer plants are no longer accounted for under HKAS 41, but under HKAS 16 instead. The produce growing on bearer plants continues to be accounted for in accordance with HKAS 41.

The amendments to HKAS 16 and HKAS 41 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments should be applied retrospectively.

As the Group does not have any biological assets, the directors of the Company do not anticipate that the application of the amendments to HKAS 16 and HKAS 41 will have a material impact on the Group’s consolidated financial statements.

Amendments to HKAS 27 Equity Method in Separate Financial Statements

The amendments to HKAS 27 allow an entity to apply the equity method to account for its investments in subsidiaries, joint ventures and associates in its separate financial statements. As a result of the amendments, the entity can choose to account for these investments either:

- i) at cost;
- ii) in accordance with HKFRS 9 (or HKAS 39); or
- iii) using the equity method as described in HKAS 28.

The amendments to HKAS 27 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments should be applied retrospectively.

As the Company does not have any investment in associates or joint ventures, the directors of the Company do not anticipate that the application of the amendments to HKAS 27 will have a material impact on the Group’s consolidated financial statements.

Amendments to HKFRS 10 and HKAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments provide guidance on addressing the acknowledged inconsistency between the requirements in HKFRS 10 and those in HKAS 28, in dealing with the sale or contribution of assets between an investor and its joint venture and associate. An investing entity is required to recognise the gain or loss arising from selling or contributing assets that constitutes or contains a business to a joint venture or associate in full. An investing entity is required to recognise the gain or loss arising from selling or contributing assets that does not constitute or contain a business to a joint venture or associate only to the extent of the unrelated investors' interests in that joint venture or associate.

The amendments to HKFRS 10 and HKAS 28 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments should be applied prospectively.

As the Company does not have any investment in joint operations, the directors of the Company do not anticipate that the application of the amendments to HKFRS 10 and HKAS 28 will have a material impact on the Company's consolidated financial statements.

Amendments to HKFRS 11 Accounting for Acquisition of Interests in Joint Operations

The amendments provide new guidance on how to account for the acquisition of an interest in a joint operation that constitutes a business as defined in HKFRS 3 Business Combination. Specifically, the amendments state that the relevant principles on accounting for business combinations in HKFRS 3 and other standards should be applied. The same requirements should be applied to the formation of a joint operation if and only if an existing business is contributed to the joint operation by one of the parties that participate in the joint operation.

A joint operator is also required to disclose the relevant information required by HKFRS 3 and other standards for business combinations.

The amendments to HKFRS 11 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted. The amendments should be applied prospectively.

As the Company does not have any investment in joint operations, the directors of the Company do not anticipate that the application of the amendments to HKFRS 11 will have a material impact on the Group's consolidated financial statements.

New and revised HKFRSs issued but not yet effective (continued)

Amendments to HKFRS 10, HKFRS 12 and HKAS 28 Investment Entities: Applying the Consolidation Exception

The amendments clarify the requirements when accounting for investment entities as well as provide relief in particular circumstances, which will reduce the costs of applying the Standards. Specifically, a parent entity that is a subsidiary of an investment entity is exempted from preparing consolidated financial statements. A parent entity which is also a subsidiary of an investment entity and hold interests in associates and joint ventures is exempted from applying equity method if it meets all the conditions stated in paragraph 4(a) of HKFRS 10.

Besides, the amendments clarify if an investment entity has a subsidiary that is not itself an investment entity and whose main purpose and activities are providing investment-related services that relate to the investment entity’s investment activities to the entity or other parties, it should consolidate that subsidiary. If the subsidiary that provides the investment-related services or activities is itself an investment entity, the investment entity parent should measure that subsidiary at fair value through profit or loss. If an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when apply the equity method, retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate’s or joint venture’s interests in subsidiaries.

Furthermore, if a parent that is an investment entity and has measured all of its subsidiaries at fair value through profit or loss, that investment entity should present the disclosures relating to investment entities required by HKFRS 12 in its financial statements. If an investment entity has consolidated its subsidiary in which the subsidiary itself is not an investment entity and whose main purpose and activities are providing services that relate to the investment activities of its investment entity parent, the disclosure requirements in HKFRS 12 apply to financial statements in which the investment entity consolidates that subsidiary.

The amendments to HKFRS 10, HKFRS 12 and HKAS 28 will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted.

As the Company does not have any investments in investment entities, the directors of the Company do not anticipate that the application of the amendments to HKFRS 10, HKFRS 12 and HKAS 28 will have a material impact on the Group’s consolidated financial statements.

New and revised HKFRSs issued but not yet effective (continued)

Amendments to HKAS 1 Disclosure Initiative

The amendments clarify that companies should use professional judgement in determining what information as well as where and in what order information is presented in the financial statements. Specifically, an entity should decide, taking into consideration all relevant facts and circumstances, how it aggregates information in the financial statements, which include the notes. An entity does not require to provide a specific disclosure required by a HKFRS if the information resulting from that disclosure is not material. This is the case even if the HKFRS contain a list of specific requirements or describe them as minimum requirements.

Besides, the amendments provide some additional requirements for presenting additional line items, headings and subtotals when their presentation is relevant to an understanding of the entity’s financial position and financial performance respectively. Entities, in which they have investments in associates or joint ventures, are required to present the share of other comprehensive income of associates and joint ventures accounted for using the equity method, separated into the share of items that (i) will not be reclassified subsequently to profit or loss; and (ii) will be reclassified subsequently to profit or loss when specific conditions are met.

Furthermore, the amendments clarify that:

- i) an entity should consider the effect on the understandability and comparability of its financial statements when determining the order of the notes; and
- ii) significant accounting policies are not required to be disclosed in one note, but instead can be included with related information in other notes.

The amendments will become effective for financial statements with annual periods beginning on or after 1 January 2016. Earlier application is permitted.

The directors of the Company anticipate that the application of Amendments to HKAS 1 in the future may have a material impact on the disclosures made in the Group’s consolidated financial statements.

In addition, the annual report requirements of Part 9 “Accounts and Audit” of the new Hong Kong Companies Ordinance (Cap. 622) come into operation as from the company’s first financial year commencing on or after 3 March 2014 in accordance with section 358 of that Ordinance. The Group is in the process of making an assessment of expected impact of the changes in the Hong Kong Companies Ordinance on the consolidated financial statements in the period of initial application of Part 9 of the new Hong Kong Companies Ordinance (Cap. 622). So far it has concluded that the impact is unlikely to be significant and will primarily only affect the presentation and disclosure of information in the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance, which for this financial year and the comparative period continue to be those of the predecessor Companies Ordinance (Cap. 32), in accordance with transitional and saving arrangements for Part 9 of the Hong Kong Companies Ordinance (Cap. 622), "Accounts and Audit", which are set out in sections 76 to 87 of Schedule 11 to that Ordinance.

The consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (i.e. its subsidiaries). If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns. When the Group has less than a majority of the voting rights of an investee, power over the investee may be obtained through: (i) a contractual arrangement with other vote holders; (ii) rights arising from other contractual arrangements; (iii) the Group's voting rights and potential voting rights; or (iv) a combination of the above, based on all relevant facts and circumstances.

The Company reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

Consolidation of a subsidiary begins when the Company obtains control of the subsidiary and ceases when the Group loses control of the subsidiary.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation (continued)

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of the exchange reserve.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

Research expenditure

Expenditure on research activities is recognised as an expense in the year in which it is incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

Retirement benefits

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statements of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probably that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes (other than properties under construction as described below), are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to allocate the cost of items of property, plant and equipment (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment (continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profits or loss.

Buildings under development for future owner-occupied purpose

When buildings are in the course of development for production or for administrative purposes, the amortisation of prepaid lease payments provided during the construction period is included as part of costs of buildings under construction. Buildings under construction are carried at cost, less any identified impairment losses. Depreciation of buildings commences when they are available for use (i.e. when they are in the location and condition necessary for them to be capable of operating in the manner intended by management).

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents

Cash and bank balances in the consolidated statements of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less and are not restricted as to use.

For the purpose of the consolidated statements of cash flows, cash and cash equivalents consist of cash and bank balances as defined above.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statements of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

The Group's financial assets comprise loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and bills receivables, other receivables, restricted bank deposits and cash and bank balances) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (continued)

Financial assets (continued)

Impairment loss of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For all the financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 30 to 90 days, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and bills receivables and other receivables where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade and bills receivable and other receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses were recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (continued)

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Financial liabilities

Financial liabilities (including trade and bills payables, accruals and other payables and interest-bearing borrowings) are subsequently measured at amortised cost using the effective interest rate method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Offsetting financial instruments

Financial assets and liabilities of the Group are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (continued)

Financial liabilities and equity instruments (continued)

Derecognition

A financial asset is derecognised only when contractual rights to the cash flows from the assets expire, or when it transfers the financial assets and substantially all the risks and rewards of ownership of the assets to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

A financial liability is derecognised when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment losses on tangible assets (continued)

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Share-based payment

Shares transferred to employees

The fair value of services received are determined by reference to the fair value of the Company's shares received by the employees of the Company and net with the net present value of the consideration paid by the employees, and is recognised as an expense when the shares transferred immediately, with a corresponding increase in equity (other reserve).

Fair value measurement

When measuring fair value except for the Group's share-based payment transactions, leasing transactions, net realisable value of inventories and value in use of tangible assets for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement (continued)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follows:

- | | | |
|---------|---|---|
| Level 1 | – | Quoted (unadjusted) market prices in active markets for identical assets or liabilities. |
| Level 2 | – | Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable. |
| Level 3 | – | Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. |

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

4. CRITICAL ACCOUNTING JUDGMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgment in applying accounting policies

The following is the critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that has the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

4. CRITICAL ACCOUNTING JUDGMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Ownership of buildings

As detailed in note 17, certain of the Group's buildings have not been granted legal title from the relevant government authorities yet. Although the Group has not obtained the relevant legal title, the directors of the Company having regard to the legal opinion have recognised the buildings on the grounds that they expect the legal title to be obtained in the near future with no major difficulties and the Group in substance are controlling these buildings.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Useful lives and residual values of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account their estimated residual values. The determination of the useful lives and residual values involve management's estimation. The Group assesses annually the residual value and the useful life of the property, plant and equipment, and if the expectation differs from the original estimate, such a difference may impact the depreciation charged in the year and the estimate will be changed in the future period. As at 31 December 2014, the carrying amount of property, plant and equipment was approximately RMB224,343,000 (2013: RMB200,288,000).

Impairment of inventories

The Group reviews an aging analysis at the end of each reporting period, and makes impairment for obsolete and slow-moving inventory items. Management estimates the net realisable value for such inventories based primarily on the latest invoice prices. As at 31 December 2014, the carrying amount of inventories was approximately RMB54,385,000 (2013: RMB62,825,000), net of the accumulated impairment loss of inventories approximately RMB2,585,000 (2013: RMB2,585,000).

4. CRITICAL ACCOUNTING JUDGMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Impairment of trade and bills receivables and other receivables

The Group makes impairment based on assessment of the recoverability of trade and other receivables. The Group makes its estimates based on the aging of its trade and other receivables balances, debtors' creditworthiness, and historical write-off experience. If the financial condition of its debtors was deteriorated and resulted in an impairment of their ability to make payments, impairment loss may be required. As at 31 December 2014, the carrying amount of trade and bills receivables was approximately RMB80,467,000 (2013: RMB69,633,000), net of allowance for doubtful debts of approximately RMB39,000 (2013: RMB39,000). As at 31 December 2014, the carrying amount of other receivables was approximately RMB4,667,000 (2013: RMB5,140,000) and no impairment on other receivables was made as at 31 December 2014 and 2013.

Impairment of property, plant and equipment and prepaid lease payments

The Group assesses annually whether property, plant and equipment and prepaid lease payments have any indication of impairment in accordance with the accounting policy. The recoverable amounts of property, plant and equipment and prepaid lease payments have been determined based on value-in-use calculations. These calculations require the use of judgment and estimates. As at 31 December 2014, the carrying amounts of property, plant and equipment and prepaid lease payments were approximately RMB224,343,000 (2013: RMB200,288,000) and RMB12,424,000 (2013: RMB12,721,000) respectively. No impairment loss of property, plant and equipment and prepaid lease payments was made as at 31 December 2014 and 2013.

Income taxes

As at 31 December 2014, net deferred tax asset of approximately RMB427,000 (2013: RMB785,000), in relation to unused tax losses, unrealised profit on inventories and accelerated tax depreciation, has been recognised in the Group's consolidated statements of financial position. No deferred tax asset has been recognised on tax losses arising in the People's Republic of China (the "PRC") and Hong Kong of approximately RMB55,206,000 (2013: RMB48,784,000) as at 31 December 2014, due to unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the actual future profits generated are less than expected, a material reversal of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal takes place.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes the interest-bearing borrowings as disclosed in note 27, net of cash and cash equivalents and equity attributable to the owners of the Company, comprising issued share capital, reserves and retained earnings.

The directors of the Company regularly review the capital structure. As part of this review, the directors of the Company consider the cost of capital and risks associates with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through the payment of dividends, new shares issues, new borrowings raised or repayment of existing borrowings.

b. Financial risk management objectives and policies

The Group's major financial instruments include trade and bills receivables, other receivables, restricted bank deposits, cash and bank balances, trade and bills payables, accruals and other payables, and interest-bearing borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include credit risk, market risk (currency risk and interest rate risk) and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

b. Financial risk management objectives and policies (continued)

Credit risk

As at 31 December 2014, the Group's maximum exposure to credit risk, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties, is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statements of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverability of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In addition, the Group aims at broadening the customer base by developing the PRC and the United States markets for innerwear products. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Other than concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings, the Group does not have any other significant concentration of credit risk. Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas.

As at 31 December 2014, the Group's concentration of credit risk by geographical locations is mainly in Japan and the PRC which accounted for 16% (2013: 13%) and 81% (2013: 76%) respectively of the total receivables.

As at 31 December 2014, the Group has concentration of credit risk as 7% (2013: 3%) and 28% (2013: 24%) of the total trade receivables was due from the Group's largest and five largest customers respectively.

Market risk

Foreign currency risk

The Group has foreign currency sales, which expose the Group to foreign currency risk. During the year ended 31 December 2014, approximately 51% (2013: 59%), of the Group's sales are denominated in United States dollars ("**USD**") other than the functional currencies of the group entities making the sales, whilst almost 100% (2013: 100%) of costs are denominated in the group entity's respective functional currencies.

Also, certain trade and other receivables, cash and bank balances and other payables are denominated in USD, Renminbi ("**RMB**") and Hong Kong dollars ("**HKD**") which are currencies other than the functional currency of the relevant group entities. The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	2014	2013
	RMB'000	RMB'000
Assets		
USD	16,572	10,534
HKD	425	2,562
RMB	2,718	128
Liabilities		
HKD	727	1,033

The Group currently does not have a foreign currency hedging policy. However, the directors of the Company continuously monitor the related foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Sensitivity analysis

The Group entities are mainly exposed to the fluctuation of USD, RMB and HKD.

The following table details the Group's sensitivity to a 5% (2013: 5%) increase and decrease in the functional currency (RMB) against the relevant foreign currencies. 5% (2013: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in relevant foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2013: 5%) change in foreign currency rates.

A positive or negative number below indicates an increase or a decrease in post-tax profit where RMB strengthens 5% (2013: 5%) against the relevant currency. For a 5% (2013: 5%) weakening of RMB against the relevant currency, there would be an equal and opposite impact on the profit.

Notes:

- (a) This is mainly attributable to the exposure on HKD denominated cash and bank balances, other receivables and other payables at the end of each reporting period.
- (b) This is mainly attributable to the exposure on USD denominated cash and bank balances and trade receivables at the end of each reporting period.
- (c) This is mainly attributable to the exposure on RMB denominated cash and bank balances at the end of each reporting period.

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate interest-bearing borrowings (see note 27 for details of these borrowings). The Group's restricted bank deposits and bank balances also have exposure to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on bank balances. The management considers the Group's exposure of the restricted bank deposits and bank balances to cash flow interest rate risk is not significant as the management does not anticipate significant fluctuation in interest rate on bank deposits. The Group has not used any financial instruments to hedge potential fluctuations in interest rates.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the interest rate offered from the People's Bank of China arising from the Group's interest-bearing borrowings.

Interest rate risk (continued)

Sensitivity analysis

The sensitivity analyses have been determined based on the exposure to interest rates for non-derivative instruments including restricted bank deposits, bank balances and interest-bearing borrowings at the end of the reporting period. The analysis is prepared assuming these financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis point (2013: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rate.

If interest rates had been 100 basis points (2013: 100 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2014 would decrease or increase by approximately RMB586,000 (2013: RMB503,000).

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank facilities.

The following table details the Group's remaining contractual maturities for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

Bank loans with a repayment on demand clause are included in the “on demand or less than 1 month” time band in the above maturity analysis. As at 31 December 2014 and 2013, the aggregate undiscounted principal amounts of these bank loans amounted to HK\$1,517,000 and HK\$ nil respectively. Taking into account the Group’s financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank loans will be repaid in accordance with the scheduled repayment dates set out in the loan agreements. At that time, the aggregate principal and interest cash outflows will amount to HK\$1,564,000.

c. Fair value

The fair value of the non-derivative financial assets and non-derivative financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using the relevant prevailing market rates.

The directors of the Company consider that the carrying amounts of current financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values due to their immediate or short-term maturities.

The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments. The directors of the Company consider the fair values of the other non-current liabilities approximate their carrying amounts.

7. REVENUE

Revenue represents the amounts received and receivable for sale of innerwear products and knitted fabrics, net of discounts and sales related taxes. Revenue is analysed as follows:

29. SHARE-BASED PAYMENT

On 7 March 2011, in recognition of the services of two senior executives of the Group's subsidiaries (whom were appointed as directors of the Company as at 15 August 2011) (the "**Executives**"), Global Wisdom, being the Company's holding company, transferred a total of 1,300,000 shares of the Company (the "**Shares**") to the Executives, at an aggregate consideration of approximately RMB30,719,000 (the "**Shares Consideration**"). The Shares Consideration was determined by reference to a valuation by an independent valuer, and represented the then fair values of the Shares. The Shares Consideration was paid by the Executives in cash by three installments which was fully settled on 7 March 2011, 7 March 2012 and 7 March 2013. The net present value of the Shares Consideration to be settled by the Executives was determined to be approximately RMB24,919,000 as at 7 March 2011.

Accordingly, the Group recorded an expense for the share-based payment of RMB5,800,000 in respect of the aforesaid arrangement which accounted for as an equity-settled share-based payment transaction in the year ended 31 December 2011, which represented the difference of the fair value of Shares transferred to the Executives and the net present value of Shares Consideration to be settled by the Executives as at 7 March 2011. Such amount of RMB5,800,000 was recorded as "other reserve" of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2014

29. SHARE-BASED PAYMENT (CONTINUED)

On 19 August 2011, the Company has adopted a share option scheme (the “**Scheme**”) for the primary purpose of providing incentives to directors of the Company, eligible employees and other selected participants and will expire on 18 August 2021. Under the Scheme, the directors of the Company may, at their discretion, invite i) employees of the Company and its subsidiaries; ii) non-executive directors of the Company and its subsidiaries; iii) suppliers of goods or services to the Company and its subsidiaries; iv) customers of the Company and its subsidiaries; v) any person or entity that provides research, development or other technological support to the Company and its subsidiaries; vi) any shareholder of the Company and its subsidiaries; vii) adviser or consultant to any area of business or business development of the Company and its subsidiaries; and viii) other group or classes of participants who have contributed or may contribute by way of joint ventures, business alliance or other business arrangement to the growth of the Company and its subsidiaries to take up options to subscribe for shares. The total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of the issued shares on the day on which the trading of the shares of the Company commence on the Stock Exchange such limit may be refreshed subject to the shareholders’ approval.

No share option was granted under the Scheme for the years ended 31 December 2014 and 2013.

33. RETIREMENT BENEFIT SCHEMES

The employees employed in the PRC are members of the state-managed retirement benefit schemes operated by the PRC government. The PRC subsidiary is required to contribute a certain percentage of their payroll costs to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions.

The Group operates a Mandatory Provident Fund Scheme ("**MPF Scheme**") for all qualifying employees in Hong Kong under the Mandatory Provident Fund Schemes Ordinance. The assets of the schemes are held separately from those of the Group, in independently administered funds. Monthly contributions made by the subsidiaries are calculated based on certain percentages of the applicable payroll costs or fixed sums as stipulated under the relevant requirements, as appropriate. The employees are required to contribute 5% of their monthly salaries or up to a maximum of HK\$1,500 (2013: HK\$1,250) and they can choose to make additional contributions. The employees are entitled to 100% of the employer's mandatory contributions upon their retirement at the age of 65, death or total incapacity.

The total cost charged to profit or loss of RMB7,056,000 (2013: RMB5,946,000) represents contributions payable to these schemes by the Group in respect of the current accounting period.
